## Shadow Creek Hail Claim Reconstruction General Information

Hello Shadow Creek,

Reconstruction work is scheduled to begin the week of April 1, 2025. Roofing material deliveries will begin several days prior to work commencement. Please be cautious around the ABC Supply trucks, they will be taking significant space in driveways and the roads as they deliver supplies. All roofing supplies will be delivered to the roofs prior to the work.

We are expecting to work on between 8-10 duplexes at a time. The total roofing project timeline should be within two weeks, we are scheduled for three.

When your roof is being worked on, please expect two days of disruption. Site foremen will be wearing orange safety vests, supervisors will be wearing green. If you have any questions or issues, please find a supervisor, and if unavailable a foreman. Maps, building numbers, and contact information is on the following pages. Please check the Shadow Creek webpage ([www.ccmgpro.com/shadowcreek](http://www.ccmgpro.com/shadowcreek)) for the latest updates.

## Shadow Creek Hail Claim Reconstruction General Information

Within 2-days of your duplex's roof replacement starting, notices will be placed on your garage door with helpful tips on how to prepare you house.

Building numbers are on the map below, and shortly we will have schedules with the buildings published to the webpage. Please keep the red areas in the map clear of cars, we will be using these for supplies and staging.

## Shadow Creek Hail Claim Reconstruction General Information

The general progression for hail damage repairs will be: roofing, then gutters, followed by stucco repair and finally painting.

We are hopeful the weather will cooperate, but we do expect some delays due to snow, cold and wind. Please visit the webpage frequently for all schedule changes and notifications.
